

Gasket Specialties, Inc.

6200 Hollis St., Emeryville, CA 94608
PH: 510-547-7955 | Fax: 510-547-8242

To our valued clients and vendors:

It is my pleasure to inform you that Gasket Specialties Incorporated will be moving to 1143 Marina Way S. Richmond, CA. 94804.

After over 30 years at our current location in Emeryville, we are expanding and moving into our own building overlooking the entrance to the beautiful San Francisco Bay.

We expect to be fully relocated within the next four months. To minimize production interruptions and delays, I am implementing the following mitigating measures:

1. As we own redundant machinery, we will move, install, and qualify only one of these machines at a time before moving the second one.
2. Whenever appropriate and acceptable to our clients, we will offload production to either one of our ISO certified branches located in Rancho Cucamonga and Portland.
3. As much as possible, we are building orders ahead of the delivery date to ship on time.

We ask for your understanding as no amount of planning can fully guarantee that this transition will go smoothly. Now, more than ever, there are many external factors that can delay our goal.

However, please be assured that the entire GSI team as well as our subsidiaries, are committed to make this process as easy as possible to you, our valued partners. If you are ever in the area, please feel free to stop by and tour our facility, the coffee is always fresh!

Best regards,
Alex Llamas
General Manager
